For lack of a better analogy;

If your cup is not
overflowing with pure
unadulterated water

(emanating) coming from
a clean vessel (i.e.: the
importance of pleasing and
praying to God (Allah) to

cleanse your heart,
then anything that
comes out of your

vessels will not
be enough for you

i.e.: to sustain all
your faculties and
existence, nor would
it positively benefit
you ~~ten~~ nor others
